

You will need:

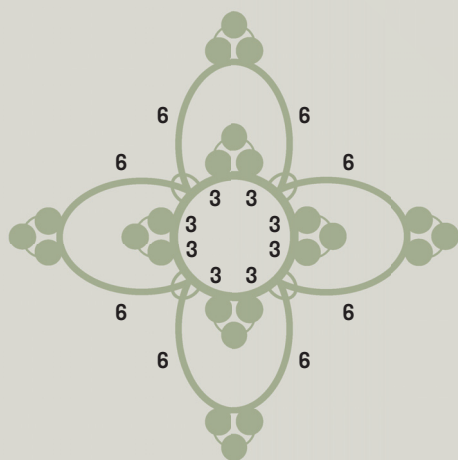

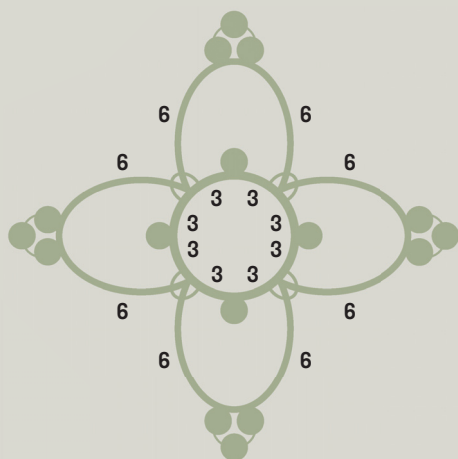

- Thread
- 16 or 24 beads, depending on which pattern you use
- Earring fittings

Ball and shuttle:

Wind the shuttle with 19½in (50cm) of thread and leave attached to the ball thread.

Follow the pattern for the centre ring of the beaded pendant on page 30.

The pattern for the outer row for both the single centre and the 3B centre is the same. Chains of 6DS, 3Bs tog, 6DS, join to the Ps of the centre ring. Join the last chain to the start of the first. Tie and cut. Attach your chosen fittings.
